E2E Private Wireless Network

LynxSpring has developed a secure, high-speed, high-capacity, segregated E2E Private Wireless Network and an E2E Easy Data Service Plan that supports today's smart systems, edge devices, intelligent equipment, and machine-to-machine applications.

The E2E Private Wireless Network grants you easy access to your systems, devices and equipment using industry-standard Ethernet communications with all the coverage, speed and reliability you need.

Security

Ensuring the security of your wireless network is paramount in today's world. LynxSpring is committed to providing you with a secure network. The E2E Private Wireless Network infrastructure ensures connections are secure and data transmission is encrypted to support integrity across the network.

You can trust that your data is safe. Different from a public network which is based on open and static IP modems, LynxSpring's E2E Private Wireless Network is purpose-built for data traffic only, avoiding the inherent risks of unsolicited traffic from the public internet, malware and viruses.

The LynxSpring E2E Private Wireless Network also delivers the larger bandwidth capability that you have come to expect on private networks.

Additional advantages include:

- ✓ Fast & Easy Deployment
- ✓ Enhanced Access & Coverage
- ✓ Redundancy & Automatic Backup
- ✓ High Capacity Access at Low Cost
- ✓ Proven Technology
- ✓ Better Control
- ✓ Customizable
- ✓ No Time-Sharing
- ✓ Network Availability

E2E Easy Data Service Plan

Smart systems, edge devices, intelligent equipment and machine-to-machine applications are characterized by a diversity of use cases and business models. Lynxspring's E2E Easy Data Service Plan is designed specifically to meet those high and low volume data transmission needs.

Lynxspring's Easy Plan is *scalable*. As you identify new requirements, you can quickly provision additional routers for connectivity. The Easy Plan provides an ideal, cost-effective solution for businesses that require reliable, secure wireless data communications and delivers many benefits including:

- ✓ Easy Set-Up & a Pre-Defined Site Address
- ✓ Easily Provision Devices (*activate, suspend or cancel*)
- ✓ Tier 1 Provider Reliability
- ✓ Manage Aspects of Your Easy Plan Through a Single Platform
- ✓ Affordable Plan, Billed Monthly
- ✓ No Early Termination Fees
- ✓ A Group of Devices Can Pool Data for Consumption Averaging

Lynxspring offers a simple data service plan that suits your situation and your applications. There are no restrictions on the number of devices you can connect to the same plan.

The plan features up to 1 GB per month with incremental, affordable data usage rates available. You only pay for the data you use.
